

HK36 Super Dimona

The Best of Two Worlds

A Breath of Fresh Air

- Well thought out interior design with leather seats, aluminum instrument panel and a composite glareshield
- Clearly laid out cockpit with plenty of space in the center stack for any avionics options
- Combination of the Garmin GNS430/COM/NAV/GPS with the new GTX 328 Mode S transponder
- Airframe lifetime: 6000 hours

This high-performance 2-seater combines the joy of power, performance and modern design with safety and environmental awareness. The affordable yet well appointed basic version leaves plenty of room for expressing your individuality inside and out, with a wide choice of configurations, options and powerplants. The Super Dimona is a motor glider for the most discerning requirements.

Optimized Towing

The Super Dimona offers harmony with the glider it tows. Powerful yet quiet, high climb performance and rapid descents make it the perfect towplane. It's also easy to handle, rugged and economical as a trainer. It is common for its versatility to lead to a pilot's life-long love affair.

Join the Diamond family.

Each member of our Diamond distribution network is a pilot committed to aviation. They're as excited about Diamond airplanes as we are, and they're eager to share their years of aviation experience with you. Locally owned and operated, Diamond distributors know your market and work with you as you research your first or next plane to buy. They don't look at aircraft ownership as one-size-fits-all. They take the time to listen to your goals and concerns, and determine the different missions you'll fly. Because they're able to offer a full line of planes, they can help you to select the best aircraft, or progression of aircraft, that's right for you, and help you trade up when the time comes. Most Diamond distributors also offer their own service facilities, and you can also find maintenance assistance from our network of independent Diamond Authorized Service Centers.
